INTENTIONAL LEADERSHIP® COURSE for EXECUTIVES

LEADING ORGANIZATIONAL CULTURE

The Intentional Leadership Course enhances and expands the ability to lead a successful and healthy organizational culture. Executives will eliminate performance barriers, expand natural leadership strengths and lead change.

COURSE COMPONENTS

This founder-led experience is intentionally designed to create challenging, insightful and high-impact dialogue. It is supported by a team of consultants and includes preparation, facilitated conversations, breakout sessions, individualized coaching and follow-up to apply and sustain results

PREPARATION

Intentional Leadership begins with one-on-one coaching, a series of assessments and assignments to identify the current state of the leader and the organization, establish desired outcomes and goals.

THREE-DAY, OFF-SITE EXPERIENCE

The three day course is a dynamic, facilitated conversation including full group, small group and one-on-one coaching. A uniquely-guided dialogue instills core principles, provides feedback, and leverages the group's experiences, while accelerating learning, growth and development.

SMALL GROUP ACCOUNTABILITY SESSIONS

Executives depart the three day program with a plan of action and an accountability group to reinforce and support progress. During this period, participants apply their learnings within the organization. Executives across industries and disciplines foster significant peer support, connection and shared experiences throughout the experience.

ONE-ON-ONE EXECUTIVE COACHING SESSIONS

One-on-one executive coaching concentrates on key focus areas, refines vision, goals, mindsets and behaviors. Coaching deepens, guides and expands the ability to discern and apply intentionality to organizational opportunities for the executive.

EXECUTIVE EXPANSION COACHING EXPERIENCE

Leaders reconvene for a full-day group session to deepen and expand learnings from the three-day course and real-world experiences. The group coaching environment provides real-time feedback, peer support and coaching to apply learning to organizational and personal experiences.
