“For decades, ambitious women were advised to observe male behavior for examples of how to succeed and lead in professional arenas. But now we’re coming full circle. When it comes to tapping group brainpower…it turns out that behaviors that tend to be intuitive to females, i.e. emotional intelligence – significantly impact the quality of a group’s decision-making.”

Intentional Leadership for Women:

Women leaders learn how to identify, express and develop their natural leadership, and use these skills to lead change efforts, build and manage effective teams and contribute to a strong company culture. Intentional Leadership for Women develops women leaders to exponentially expand and increase their effectiveness, responsibility and influence.

Intentional Leadership for Women is a series of expertly facilitated conversations, breakout sessions, and coaching designed to create performance breakthroughs.

Components include:

**Preparation** Intentional Leadership for Women begins with a preparatory coaching conversation and a series of assignments to assess the individual’s current state, identify desired outcomes and prepare for a high impact experience.

**Three-Day, Off-Site Leadership Immersion** The three day core program is an intensive, facilitated conversation including large group, small group and one-on-one coaching. An interactive dialogue and assignments examine fundamental leadership competencies, instill core concepts and accelerate participants’ growth and development.

**Small Group Accountability Sessions** Participants depart the three day off-site with an action plan and are assigned to accountability groups. During this period, participants put their learnings into practice within the organization, and reinforce and support their team mates.

**Group Coaching Sessions** A one-day group session offers real-time coaching to deepen and solidify learning from the three-day course and on-the-job experiences, as well as integrates the principles of peak performance.

**Follow-Up Opportunities** Participants will be advised of opportunities to expand and sustain their progress. The group will be periodically invited to participate in conversations to explore their shared experience, sustain their success, and discuss subject matter concerning women in leadership and personal development.

* Assessments and customized coaching packages are available for additional fees.
Intentional leadership is transformative. This approach engages people so they are committed to the vision, direction and values of your organization and are inspired to do their best work. We partner with our clients to develop highly effective growth strategies and self-sustaining, intentional cultures.
